

C:/Dev/DungeonGenerator
/DungeonGenerator/Generator
/kruskalGenerator.hpp

```
graph BT; A["C:/Dev/DungeonGenerator/Generator/kruskalGenerator.cpp"] --> C["C:/Dev/DungeonGenerator/Generator/kruskalGenerator.hpp"]; B["C:/Dev/DungeonGenerator/Generator/mazeGenerator.cpp"] --> C;
```

The diagram illustrates a file structure where two source files, `kruskalGenerator.cpp` and `mazeGenerator.cpp`, are located in the same directory as a common header file `kruskalGenerator.hpp`. Both source files include the header file, as indicated by the blue arrows pointing from the source files to the header file.
