

std::exception

```
classDiagram
    class std_exception["std::exception"]
    class Math_ZeroDivisionException["Math::ZeroDivisionException"]
    std_exception <|-- Math_ZeroDivisionException
```

The diagram illustrates an inheritance relationship. At the top is a white box representing the `std::exception` class, divided into three horizontal sections. Below it is a gray box representing the `Math::ZeroDivisionException` class, also divided into three horizontal sections. A blue arrow with an open triangular head points from the top section of the gray box to the bottom section of the white box, indicating that `Math::ZeroDivisionException` inherits from `std::exception`.

Math::ZeroDivisionException
